Meaningful Use and EHR resources

The principal resource for all things Meaningful Use is

www.cms.gov/EHRincentiveprograms

embedded links will take you to details of both Medicare and Medicaid programs, to Stage 1 and Stage 2 criteria, educational resources, registration links, and more.

A good starting place for the planning process for acquiring and implementing an EHR is the American EHR Partners website, a partnership that is managed by the American College of Physicians and includes AAAAI

AmericanEHR.com

More information about e-measures and quality measures in general is found on the National Quality Forum website

www.qualityforum.org
